

MAKE A DIFFERENCE!

The Family Support Councils consist of family members of people with I/DD who meet regularly to:

- Conduct public forums and surveys, gathering feedback from families in their area on what is or is not working in the support services they use
- Direct families toward important resources and useful information about the services they need
- Recommend changes to existing DDD/DCF services based on input given by families in their region
- Educate service providers and have them meet face-to-face with families so that they can better understand the needs of the families they serve
- Participate in statewide DDD & DCF committees to advocate for families
- Provide education to families and empower them to participate in improving the system for themselves and others

Families of persons with intellectual and developmental disabilities (I/DD)

Have you ever wished for assistance in navigating the service delivery system in your area?

Do you feel as though the current system is failing to meet the needs of your family?

You can do something about it!

Contact your local Regional Family Support Planning Council (RFSPC) and ask about becoming a member!

Ten RFSPCs are located throughout New Jersey and generally meet once a month. As a council member, you have the opportunity to assist and advise the New Jersey Division of Developmental Disabilities (DDD) and the Department of Children & Families (DCF) on how to best use resources to meet the needs of families and individuals living in your area.

Council members also partner with these agencies and other service providers in their area to develop and modify services that best meet the needs of families and individuals in their region. Members are reimbursed for reasonable and customary expenses for travel and childcare.
