ABA Intensive Therapeutic Day Program

This program offers a valuable alternative to traditional daycare or kindergarten by providing individualized ABA and therapeutic services (if applicable) throughout the day in a structured and supportive environment. Clients will follow a routine that includes opportunities for social skill instruction during activities such as *Circle Time*, where the scope and sequence was designed by therapists to address sounds, fine motor strokes and shapes, and numbers in a developmental order. *Lunch* is led by a licensed Speech-Language Pathologist and is a fun & language rich experience with an emphasis on functional language and feeding skills! Individualized programs are addressed throughout the day!
